## BIB400 Faith and Living

### Course Scope & Sequence

#### **COURSE DESCRIPTION**

Bible IV is the second part of a two-year program, emphasizing the relationship the students have with their community. The goal of the course is to help students learn how to live in the world and minister to it without being conformed to it. This also includes helping students to continue to be transformed by the renewing of their minds. Family and marriage relationships are explored, introducing students to family living, how it must meet the needs of the child, and developing the child into an emotionally, mentally, and spiritually stable individual who is prepared to handle the responsibilities of marriage and parenting. This course uses the inductive method of Bible study.
