

# Phoenix Christian Jr/Sr High School Foreign Language Philosophy Statement

We believe that the Lord has given mankind the ability to communicate through speaking. Many Europeans speak three, four or more languages, and we believe that Phoenix Christian students have the ability to communicate in languages other than their native English.

Our goal is for our students to communicate in another language and come to understand the cultures of those from other countries, for when one learns another language, one also learns of the culture of those who speak that language. Students will also be prepared to share the Gospel to non-English speaking people through Bible memorization. We expect that students will acquire an additional language and use this ability in their future work and ministry.
