

June 2026

Dear High School Students & Parents,

*“For at one time you were darkness, but now you are light in the Lord. Walk as children of light.” – Ephesians 5:8*

The 2026-2027 school theme is “Walk in the Light” which is an invitation to follow the light and to live as people who carry it all to glorify the name of Jesus.

At our school, this calling shapes not only what we believe, but how we live together each day. In a very real sense, the culture of our community is not something handed to you rather it is something you build. Together, each of us plays a vital role in shaping an environment where others can grow, belong, and thrive.

To *walk in the light* means taking ownership of that culture. It means creating a place of belonging, where every person is seen, valued, and treated with dignity. It means choosing integrity, doing what is right even when no one else notices. It means understanding your choices impact the whole.

These principles are lived out in classrooms, hallways, on the field, and in everyday interactions. The way you speak, the way you treat others, and the way you approach your work all contribute to who we are as a community.

This year’s theme is an opportunity to lead. Not just in titles or positions, but in character and influence. The light you carry has the power to shape this school in meaningful and lasting ways.

As we step into this new year, may we commit ourselves to walking in the light both individually and as a community.

Partnering with you,

Jeannine M. Graden

High School Principal
